Volume 54 · Numbers 1 and 2 · 1989

RESEARCH ARTICLES

Friedland, K. D., Ahrenholz, D. W., Guthrie, J. F.
Influence of plankton on distribution patterns of the filter-feeder *Brevoortia tyrannus* (Pisces: Clupeidae) 1–11

Kingsford, M. J.
Distribution patters of planktivorous reef fish along the coast of northeastern New Zealand 13–24

Whitfield, A. K.
Ichthyoplankton interchange in the mouth region of a southern African estuary 25–33

Epifanio, C. E., Masse, A. K., Garvine, R. W.
Transport of blue crab larvae by surface currents off Delaware Bay, USA 35–41

Anger, K., Harms, J., Montú, M., Bakker, C.
Growth and respiration during the larval development of a tropical spider crab, *Libinia ferreirae* (Decapoda: Majidae) 43–50

Shirley, S. M., Shirley, T. C.
Interannual variability in density, timing and survival of Alaskan red king crab *Paralithodes camtschatica* larvae 51–59

Osman, R. W., Whitlatch, R. B., Zajac, R. N.
Effects of resident species on recruitment into a community: larval settlement versus post-settlement mortality in the oyster *Crassostrea virginica* 61–73

Dayton, P. K., Carleton, J. H., Mackley, A. G., Sammarco, P. W.
Patterns of settlement, survival and growth of oysters across the Great Barrier Reef 75–90

Clifton, R. J., Stevens, H. E., Hamilton, E. I.
Uptake and depuration of ^{241}Am, $^{239+240}Pu$, ^{238}Pu, ^{137}Cs and ^{106}Ru by *Mytilus edulis* under natural stress 91–98

Barry, J. P.
Reproductive response of a marine annelid to winter storms: an analog to fire adaptation in plants? 99–107

Riebesell, U.
Comparison of sinking and sedimentation rate measurements in a diatom winter/spring bloom 109–119

Prézelin, B. B., Glover, H. E., Ver Hoven, B., Steinberg, D., Matlick, H. A., Schofield, O., Nelson, N., Wyman, M., Campbell, L.
Blue light effects on light-limited rates of photosynthesis: relationship to pigmentation and productivity estimates for *Synechococcus* populations from the Sargasso Sea 121–136

Vagué, D., Duarte, C. M., Marrasé C.
Phytoplankton colonization by bacteria: encounter probability as a limiting factor 137–140

Mitchell, J. G., Fuhrman, J. A.
Centimeter scale vertical heterogeneity in bacteria and chlorophyll *a* 141–148

Roman, C. T., Daiber, F. C.
Organic carbon flux through a Delaware Bay salt marsh: tidal exchange, particle size distribution, and storms 149–156

Spies, R. B., Kruger, H., Ireland, R., Rice, D. W., Jr
Stable isotope ratios and contaminant concentrations in a sewage-distorted food web 157–170

Henley, W. J., Ramus, J.
Time course of physiological response of *Ulva rotundata* to growth irradiance transitions 171–177

Germann, I.
Aspects of carbon metabolism in relation to autumnal blade abscission in the kelp *Pleurophycus gardneri* (Phaeophyceae, Laminariales) 179–188

Wiencke, C., tom Dieck, I.
Temperature requirements of growth and temperature tolerance of macroalgae endemic to the Antarctic Region 189–197

NOTES

Seki, H., Naganuma, T.
Growth characteristics of *Thiobacterium* sp. from the plume of hydrothermal vents of the North Fiji Basin 199–202

Kristiansen, S., Paasche, E.
An improved method for determining relative ^{15}N abundance in ammonium regeneration studies by direct diffusion 203–207

Volume 54 · Number 3 · 1989

RESEARCH ARTICLES

Sherr, B. F., Sherr, E. B., Pedrós-Alió, C.
Simultaneous measurement of bacterioplankton production and protozoan bacterivory in estuarine water 209–219

Bas, C., Calderon-Aguilera, L. E.
Effect of anthropogenic and environmental factors on the blue whiting *Micromesistius poutassou* off the Catalonian coast, 1950–1982 221–228

Cartes, J. E., Sardà, F.
Feeding ecology of the deep-water aristeid crustacean *Aristeus antennatus* 229–238

Grémare, A., Amouroux, J. M., Amouroux, J.
Modelling of consumption and assimilation in the deposit-feeding polychaete *Eupolymnia nebulosa* 239–248

Dame, R. F., Spurrier, J. D., Wolaver, T. G.
Carbon, nitrogen and phosphorus processing by an oyster reef 249–256

Yoshioka, P. M., Yoshioka, B. B.
A multispecies, multiscale analysis of spatial pattern and its application to a shallow-water gorgonian community 257–264

Kilar, J. A., McLachlan, J.
Effects of wave exposure on the community structure of a plant-dominated, fringing-reef platform: intermediate disturbance and disturbance-mediated competition 265–276

Muñoz, M., Santelices, B.
Determination of the distribution and abundance of the limpet *Scurria scurra* on the stipes of the kelp *Lessonia nigrescens* in Central Chile 277–285

Coen, L. D., Tanner, C. E.
Morphological variation and differential susceptibility to herbivory in the tropical brown alga *Lobophora variegata* 287–298

Tomasko, D. A., Dawes, C. J.
Evidence for physiological integration between shaded and unshaded short shoots of *Thalassia testudinum* 299–305

NOTE

Børsheim, K. Y., Harboe, T., Johnsen, T., Norland, S., Nygaard, K.
Flow cytometric characterization and enumeration of *Chrysochromulina polylepis* during a bloom along the Norwegian coast 307–309
